## Intro

Located in the heart of Asia, Singapore is a vibrant and beautiful tropical city-state. The city presents as a melting pot of different religions, cultures and lifestyles co-existing with mutual respect, where a diverse range of uniquely enriching experiences awaits you. Boasting an excellent cutting edge infrastructure and a strong regulatory framework, Singapore thrives as a major international financial and trading.

The APSP meeting provides a unique opportunity to network, exchange views and meet up with friends especially from the Asia Pacific region and other parts of the world. On behalf of the local organizing committee, we look forward in welcoming you to Singapore in August 2009!

## KEYNOTE SPEAKERS

**Thomas Van Dyke - USA**  
Management of Inflammation in Periodontal Disease: The Future of Periodontal Therapy

**Sebastian Ciancio - USA**  
Oral Care Dynamics at the Biofilm Frontier

**Isao Ishikawa - Japan**  
Periodontal Regeneration based on Cell Sheet Engineering - the future of periodontal therapy

**Mark Bartold - Australia**  
Stem Cells & Periodontal Regeneration

**Niklaus P. Lang - Hong Kong**  
How do patient data affect treatment planning and prognosis?

**Rino Burkhardt - Switzerland**  
Esthetic risk factors in plastic periodontal and periimplant surgery

## COUNTRY SPEAKERS

**Esmonde Corbet - Hong Kong**

**Nitish Surathu - India**

**Zhang Jin-Cai - China**

**Chea Sok - Cambodia**

**Jin Li-Jian - Hong Kong**

**Yuniarti Soeroso - Indonesia**

**Takashi Arai - Japan**

**Tara Taiyeb Ali - Malaysia**

**Nanette Vergel de Dios - Philippines**

**Narongsak Laosrisin - Thailand**

**Seong-Ho Choi - South Korea**

## Pre-congress workshop

# PERIODONTAL MICROSURGERY HANDS-ON WORKSHOP

**Date: 28 August 2009 (Friday)**

**Venue: To be determined**

**Expected participant number: 10**

**Professor: Dr. Rino Burkhardt**

### The speaker/instructor:

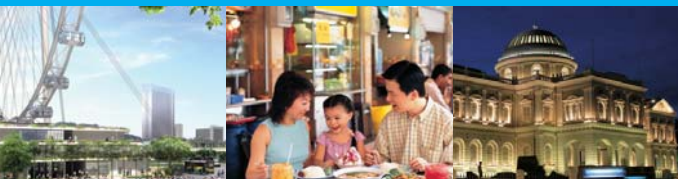

Dr. Burkhardt graduated and received his doctorate from the Medical Faculty of the University of Zurich, Switzerland. He is an EFP (European Federation of Periodontology) certified specialist in periodontology and received his Masters degree from the Medical Faculty of the University of Berne (MAS in Periodontology).

He maintains a private practice in Zurich, limited to periodontology and implantology. He is an active member of the European Academy of Esthetic Dentistry (EAED), the European Association for Osseointegration (EAO), the Swiss Society of Periodontology (SSP) and Board member of the Swiss Society of Implantology (SGI)

### The workshop:

In recent year, increasing number of prospective studies confirm the superior outcome of minimally invasive treatments (e.g. primary wound closure, faster revascularization of the injured tissues) compared with conventional approaches. A technique that seems to be promising is the use of magnification devices for periodontal surgical procedures.

The workshop will include a short introduction on the techniques and different indications in modern plastic reconstructive surgery with clinical illustrations. The main part of the workshop will include hands-on with guidance from Dr. Burkhardt, where the participant will learn how to handle very fine suture materials under high magnification and how to prepare, elevate and close a flap in different treatment indications.
