

The Art and Science of the Smile: Aesthetics, Ceramics and Emerging Technologies

Dr Eric Tan

Friday 2 June 2017
CPDA D 11/17

Overview

Patient expectations are increasingly demanding of both aesthetic and functional results. Achieving predictable long term outcomes are dependent upon the correct diagnosis, treatment planning and application of modern techniques and materials to create patient satisfaction and success. This presentation will aim to cover the following topics:

- Objective aesthetic analysis and smile design
- Direct restorative materials and techniques
- Modern ceramics and their applications - recipes for success
- Emerging digital technologies
- Implants - long term aesthetics and tissue maintenance

The Presenter

Dr Eric Tan graduated in dentistry from the University of Adelaide and shortly thereafter completed a Masters degree in Prosthodontics from the University of Melbourne. He has lectured in Australia and internationally on topics relating to implant dentistry, adhesion, occlusion and ceramics. He recently retired from the position of an Honorary Fellow of the University of Melbourne Dental School and was involved in the clinical teaching of fixed prosthodontics and implant dentistry at the University of Melbourne at the postgraduate level. He maintains a Private Specialist Prosthodontic Practice in Brighton, Victoria.
