

PATHOLOGY HONOURS SCHEDULE 2009

The Pathology Honours Schedule is designed to introduce the student to core components of research theory and presentation techniques, and then use formative assessment to develop those techniques throughout the year. The majority of the initial core components will be part of the School of Medical Sciences Common Honours Program involving students from Anatomical Sciences, Pharmacology and Pathology (see attached program). Attendance at the core components is compulsory. The remaining assessments throughout the year are conducted by the Discipline of Pathology. Due dates for work are fixed and extensions will not be granted.

Mon 2nd Feb	General introduction and welcome	10 am (N131, School Tea Room)
	Discipline – Based Intro to Facilities	10.30 am
Tues 3rd Feb	Biosafety, Occupational Health and Safety (Ms Betty Reinboth)	10 am (Hone Lecture theatre)
