

School of Medical Sciences

2009 - Honours and Postgraduate Common Structured Program
Disciplines: Anatomical Sciences, Pathology and Pharmacology

It is a requirement that all School of Medical Sciences Honours and Postgraduate Students attend the common structured program. This program is run during the first week of February every year. This year it has been decided that all seminars in this common program will be recorded (audio only) by My Media and made available to students throughout the year on MyUni. In addition, electronic copies of handouts will also be made available on MyUni.
