

NHMRC Research Officer

School of Medical Sciences
(Ref: 10511)

We are seeking a Research Officer for an NHMRC-funded project on the cognitive effects of long-term opioid administration. This project is a collaboration between the Discipline of Pharmacology, School of Medical Sciences and the School of Psychology. You should have a PhD or an Honours degree in psychology, pharmacology or a related discipline and the ability to work independently and as a team member. Experience in the assessment of cognitive function is preferred but not essential. Those applicants with an Honours degree will have the opportunity to enrol for a PhD.

Fixed-term position available immediately for a period of 2 years in the first instance.

Salary: (Level A) \$49,053 - \$66,567 per annum, plus an employer superannuation contribution of 9% applies.

Closing date 10/04/09

NHMRC Research Assistant

Discipline of Surgery, School of Medicine
(Ref: 11651)

An excellent opportunity exists for a highly motivated Research Assistant in the field of clinical and medical rhinology. You have a strong background in molecular biology, excellent verbal and writing abilities, and the capacity to work under pressure in a fast paced, small laboratory team environment. On a day-to-day basis you will be required to maintain primary human cell lines, maintain bacterial and some fungal cultures, follow strict protocols for animal and human tissue protein and RNA extraction, and set up real time-RT-PCR and Multi Array Enzyme Linked Immunosorbent Assays.

Fixed-term position available immediately for a period of 12 months.

Salary: (HEO5) \$50,070 - \$55,874 per annum, plus an employer superannuation contribution of 9% applies.

Closing date 13/04/09

Someone

knew Doug was an avid green thumb.

Are you that someone who wishes to bring positive change to the lives of others? Like Doug, who dreamed about having a garden again – but just needed someone to help get him started. If you share our belief that genuine care is practical, positive and respectful of the individual, we think you have something important to offer.

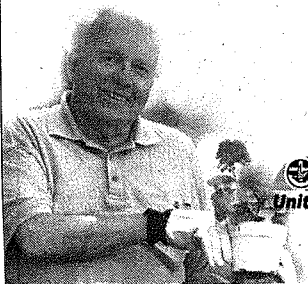

To be part of our enlightened approach to service provision apply online or register your interest for upcoming vacancies at www.careersatucwesley.org.au or contact Peter Coulson on 8202 5099.

VACANCIES

AutumnCare Project Officer (7471) Fixed Term Contract to 30/6/2010.

The AutumnCare Project Officer will provide support to the Residential Aged Care facilities for successful implementation and development of the AutumnCare information system. The duties will include project communication and reporting to the task group, configuration and setup of application, developing and delivering training and support. The position will be located within the Information Services department and working at the Aldersgate and Murray Mudge Aged Care sites. Knowledge and experience in Aged Care systems necessary and experience in using information systems an advantage.
