

POPULATION PATTERNS

- Incidence, Prevalence
- Pathways

INTERVENTION INNOVATION

- Effectiveness evaluation
- Quasi-experimental studies using administrative data
- Pragmatic randomised controlled trials

PRIORITY POPULATIONS

- Understand service contact patterns
- Estimate levels of need

SERVICE DESIGN

- Social Impact Bonds
- Pay by results
- Contracted services

WHAT WE DO

RISK STRATIFICATION

- Aligning services to needs
- Multivariable risk prediction

SERVICE SYSTEMS

- Service delivery patterns
- Identifying characteristics of frequent service users

RETURN DATA TO SOURCE

- Engaging stakeholders with relevant data insights

DATA ENHANCEMENT

- Informing better data collection systems and practices
