

Help make a difference

We are inviting volunteers with **major depressive disorder** to participate in a clinical research study to assess a new medication

To take part in this study:

- ✓ Be aged 18 - 70 years old
- ✓ Diagnosed with major depressive disorder
- ✓ On stable medication and/or therapy
- ✓ No current/history of substance abuse

Eligible participants in this clinical research study, will:

- ✓ Receive a stipend for your time
- ✓ Access potential new treatments & receive study-related medical care

Your contribution is invaluable, and may help expand treatment options for people living with major depressive disorder.

If this sounds like you, register your interest today!
