

Help make a difference

We are inviting volunteers with
diagnosed depression
to participate in a clinical research
study to assess a new medication

To take part in this study:

- ✓ Be aged 18 - 65 years old
- ✓ Diagnosed with Depression
- ✓ On stable medication and/or therapy
- ✓ No current/history of substance abuse

Eligible participants in this clinical research study, will:

- ✓ Receive a stipend for your time
- ✓ Access potential new treatments & receive study-related medical care

**Your contribution is invaluable and may help expand treatment options
for people living with major depressive disorder.**

If this sounds like you, register your interest today!
