# WHY THE UNIVERSITY OF ADELAIDE?

## **Future confidence. Global opportunity.**

Our world is changing fast. Many of the jobs our current generation will perform in the future do not yet exist. But the ideal preparation for them does. Informed by cutting-edge research and ongoing industry collaboration, a University of Adelaide education gives students the flexibility to adapt and thrive. Wherever their careers take them, they'll be ready.

And rest assured, their options will be many. The University of Adelaide is South Australia's global university—consistently holding the highest world ranking and collaborating with top-performing businesses and educational institutions across multiple continents. This opens doors for our graduates virtually everywhere.

A wealth of professional opportunity, however, is just one of the rewards we offer. University of Adelaide students also benefit from the deep inspiration

that can only come from a culture of sustained excellence. Our research, and that of our alumni, has enhanced life for people and planet for well over 100 years, and played a role in many of the world's great advances. Among these are the discoveries of penicillin, x-ray crystallography and gravitational waves.

Equally importantly, we have a proud history of championing equality. Adelaide was the first university in Australia—and only the second in the world—to admit women to academic courses. We've educated two Indigenous Australian Rhodes Scholars and we count among our alumni Australia's first female prime minister and Supreme Court judge.

There's no better place for students to prepare for their futures.

*\*Times Higher Education and QS rankings*

*^A coalition of Australia's leading research intensive universities*

# WHY HEALTH?

The University of Adelaide's wide range of undergraduate health-related degrees can open doors to a successful, rewarding career that improves health and wellbeing around the globe.

Integrating innovative teaching, hands-on experience and cutting-edge research, the Faculty of Health and Medical Sciences is a world leader in health education. We are ranked at the top of the Group of Eight universities nationally for good teaching; and second across all Australian universities for overall satisfaction of the student experience (*Australian Graduate Survey 2015*).

Our degrees are underpinned by a vibrant student culture. Our state-of-the-art facilities are among the best in Australasia. We have strong, well established links to research centres, institutes and the health care industry, providing students with the opportunity to immediately start building professional networks.

Our graduates are compassionate, high-achieving professionals with the skills, knowledge, and leadership expertise to make a difference in all aspects of health care, research and policy. To learn more about the Faculty of Health and Medical Sciences, visit: [health.adelaide.edu.au](http://health.adelaide.edu.au)

## **Adelaide Health and Medical Sciences building**

In 2017, the faculty entered an exciting new era in health education with the opening of the 14-floor, \$246 million Adelaide Health and Medical Sciences (AHMS) building. Located in the heart of the Adelaide Biomed City alongside the new Royal Adelaide Hospital and South Australian Health and Medical Research Institute (SAHMRI), the AHMS building is home to the new Adelaide Dental Hospital, five major research themes and our flagship medical and nursing degrees.

The building brings together more than 1600 students and 700 health researchers in a vibrant, innovative environment where learning and discovery work hand-in-hand.

## **DEVELOPING FUTURE HEALTH LEADERS**

The Faculty of Health and Medical Sciences has a reputation for producing highly skilled graduates who are well regarded by industry, and is ranked third in Australia for securing full-time graduate employment (*Australian Graduate Survey 2015*). Our degrees provide hands-on experience in real-world environments, allowing students to develop the skills and confidence to excel across a range of health-related careers.

*Adelaide Health and Medical Sciences building*

### **World-class simulation and clinical skills facilities**

State-of-the-art facilities, new teaching styles, and the latest technologies are taking our degrees into the future and transforming health sciences education, research and patient care in South Australia.

Our world-class facilities include the: Dental Simulation Clinic; Ray Last laboratories, for bioskills, surgical skills and anatomy; and Adelaide Health Simulation. Located in the new AHMS building, Adelaide Health Simulation is the most high-tech health care teaching facility in Australasia. It includes 24 real-life simulation spaces, four critical-care operation theatres, eight acute-care ward suites, and four virtual home environments.

**Integrating innovative teaching, hands-on experience and cutting-edge research, the Faculty of Health and Medical Sciences is a world leader in health education.**

### Global Learning experiences

The faculty provides students with the valuable opportunity to study overseas during their degree. Depending on the degree, Global Learning experiences can include short study tours, semester exchanges, clinical placements or volunteer opportunities. This opportunity will give you a global perspective on major health challenges, and provide the chance to build confidence and intercultural skills.

### Peer Mentoring Program

Our Peer Mentoring Program offers support for international and domestic students in their transition to university.

Senior-year students provide guidance and assistance to commencing students to help them meet new people, establish friendships and develop an understanding of the expectations and requirements of university life.

To discover more, visit: [health.adelaide.edu.au/current-students/peer-mentoring/](http://health.adelaide.edu.au/current-students/peer-mentoring/)

### Yaitya Purruna Indigenous Health Unit

The words 'yaitya purruna' are from the Kaurna language of the Adelaide Plains People, and mean 'our own health and wellbeing'.

Yaitya Purruna Indigenous Health Unit provides support for all Aboriginal and Torres Strait Islander students studying in the Faculty of Health and Medical Sciences.

For more information, visit: [health.adelaide.edu.au/engage/facilities-and-services/yaitya-purruna](http://health.adelaide.edu.au/engage/facilities-and-services/yaitya-purruna)

### Aboriginal and Torres Strait Islander Access Entry Scheme

Wirltu Yarlur: Aboriginal Education administers the Aboriginal and Torres Strait Islander Access Entry Scheme in partnership with the Faculty of Health and Medical Sciences' Indigenous Student Support Officer and Admissions Team.

The scheme offers Aboriginal and Torres Strait Islander Australians an alternative entry pathway to studying the following degrees:

- Bachelor of Dental Surgery
- Bachelor of Health and Medical Sciences
- Bachelor of Health and Medical Sciences (Advanced)

## FIT UNI INTO LIFE

This diary snapshot is an *example* of how a student may choose to schedule their university study and life. Attendance at university is less structured than at high school. Hours spent on campus in lectures, tutorials, practicals or in the field—known as 'contact hours'—depend on the degree enrolled in, study mode selected (internal, external, online or flexible learning) and course choices.

### MONDAY

- 8-9am Human Biology lecture
- 9-11am Human Biology tutorial
- 11am-2pm Private study/ lunch break
- 2-4pm Case Based Learning (CBL) tutorial
- 6-8pm Private study

### TUESDAY

- 10am-12pm Clinical Skills tutorial
- 12-1pm Medicine lecture
- 1pm Meet in Hub Central
- 3-4pm Interprofessional learning tutorial
- 6-8pm Adelaide University Medical Orchestra practice

### WEDNESDAY

- 10am-12pm Case Based Learning tutorial
- 12pm Lunch at Uni Bar
- 4-5pm Bioscience lecture
- 6pm Private study

- Bachelor of Medicine and Bachelor of Surgery
- Bachelor of Nursing
- Bachelor of Psychological Science.

Aboriginal and Torres Strait Islander Access Entry Scheme applicants are assessed on several factors, including: educational history; employment experience; understanding of the chosen program of study; an interview and other factors that demonstrate their skills and study.

The interview panel will include an Indigenous Student Support Officer, a representative from the academic area in which the applicant seeks enrolment, and a student representative.

For more information about the Aboriginal and Torres Strait Islander scheme, eligibility criteria and the admissions process, visit: [adelaide.edu.au/wirltu-yarlu/future-students](http://adelaide.edu.au/wirltu-yarlu/future-students)

### Yaitya Purruna Health and Medical Scholarship

The Yaitya Purruna Health and Medical Scholarship has been established by the Faculty of Health and Medical Sciences to support Aboriginal and Torres Strait Islander students undertaking any undergraduate program in the faculty. The scholarship is valued at \$10,000 per year for the duration of the degree and is awarded based on academic merit.

For more information, visit: [scholarships.adelaide.edu.au/scholarship/ug/health/yaitya-purruna-health-and-medical-scholarship](http://scholarships.adelaide.edu.au/scholarship/ug/health/yaitya-purruna-health-and-medical-scholarship)

### Incidental fees

Most students in the faculty will have additional costs, over and above their tuition fees. Depending on the degree, this can include things like textbooks, equipment, required immunisations, clearance renewals, first aid certificates, travel and accommodation for placements, and student amenities fees.

For each degree's specific fees, visit: [adelaide.edu.au/student/finance/other-fees](http://adelaide.edu.au/student/finance/other-fees)

THURSDAY	FRIDAY
8am -12pm Medicine lectures	8am Bioscience lecture
1-2.30pm Ethics/Medical Personal and Professional Development (MPPD) tutorial	9-11am Anatomy practical session
4-5pm MPPD lecture	1-3pm CBL tutorial
5.30pm Rowing practice	5.30pm Friday drinks on Rundle Street
7pm Private study	

## LIFE EXPERIENCE THROUGH GLOBAL LEARNING

[www.adelaide.edu.au/global-learning](http://www.adelaide.edu.au/global-learning)

All students will have the opportunity to study overseas through a range of programs, including student exchange, study tours and summer and winter schools. There are many exciting opportunities in Europe, Asia, the Americas and Africa.

## ABORIGINAL AND TORRES STRAIT ISLANDERS

[www.adelaide.edu.au/wirltu-yarlu](http://www.adelaide.edu.au/wirltu-yarlu)

The University of Adelaide values diversity where the rich cultures of Aboriginal and Torres Strait Islanders are taught, supported and celebrated. Wirltu Yarlu provide a range of services, schemes and preparation programs that are designed to support your desire to gain educational outcomes. Wirltu Yarlu is a place where students can soar to new heights.

## ADVANCED BACHELORS

[www.adelaide.edu.au/degree-finder](http://www.adelaide.edu.au/degree-finder)

High achieving students who are inspired by the opportunity to contribute to the world's important discoveries and research advancements should consider the Advanced Bachelors degrees. These degrees provide a unique close quarters learning experience with academics of international distinction.

# CAREERS SERVICE AT ADELAIDE

**At the Careers Service we work to help all University of Adelaide students develop connections with industry and maximise their employability, by delivering a suite of industry-informed, student-focused career development services.**

Our award-winning team maintains close relationships with a wide range of local, national and international employers, ensuring our industry knowledge is second to none. These partnerships keep us fully informed of current and emerging opportunities for students desiring professional experience, and for graduates seeking employment. They also ensure we're keenly aware of what graduate employers are looking for.

To pass on this awareness to students, we hold a major Careers Expo every year and host numerous events where employers work on our North Terrace campus, network with students and promote career pathways within their organisations. Our industry mentoring program also provides opportunities for students to meet and gain insight from alumni, managers and leaders at various stages in their career lifecycles.

All employers value industry-related work experience, and being able to draw on these experiences is a great way for students to provide evidence of the skills, knowledge and abilities they've developed.

Through our Careers Service, students can access advice—both individually and through small-group workshops—on how to: source opportunities; create outstanding applications and resumes; prepare for interviews; make the most of opportunities they're offered; and articulate their experiences' benefits to employers.

We also operate an online CareerHub, which hosts numerous resources to help students connect with industry and apply for work, and lists opportunities for work experience, graduate jobs and industry-related part-time and volunteer work.

## MCKEELY MANEY

---

### Qualification

Bachelor of Health Sciences (Public Health) 2014.

### Role

Child Injury Prevention Project Officer, Kidsafe SA.

### Why Health Sciences?

I had always wanted to help people, so my high school careers counsellor recommended a career in health. I looked at all the typical allied health professions but couldn't see myself doing any of those jobs, so I applied for Health Sciences in the hope that it would keep my options open.

### Any advice?

Definitely get involved with the University's internship program and seek out those opportunities. Consider attending conferences on topics that interest you. Many not-for-profits need volunteers, which provides an opportunity for you to get a feel for an organisation and know when jobs are becoming available.

01

RANKED  
1ST IN  
AUSTRALIA\*

RANKED  
27TH IN  
THE WORLD\*

# DENTISTRY AND ORAL HEALTH

*\* Shanghai Ranking's Global Ranking of Academic Subjects 2018*

## A centre of excellence since 1920, Adelaide Dental School is the highest ranked dental school in Australia and offers you the chance to learn in one of the country's most advanced dental facilities.

In 2017, the school relocated to the \$246 million Adelaide Health and Medical Sciences (AHMS) building, which is also home to the new, state-of-the-art Adelaide Dental Hospital.

Our staff have won national awards for their outstanding teaching, knowledge and practical skills. Together with real-world clinical placements and hands-on simulation learning, this will ensure you gain the knowledge, skills and confidence to excel in your chosen career.

### What is dentistry?

Dentistry is the profession concerned with preventing, diagnosing and treating problems of the teeth, jaws and mouth. Good dental health is important for everyone, making dentistry a primary health care profession. Choose a career in dentistry and you'll make a difference to the lives of many.

### What is oral health?

Oral health includes dental hygiene, prevention and treatment of oral disease, professional cleaning, and health promotion through education. Good oral health is essential throughout life. Choosing to work in oral health will lead to a rewarding career helping people of all ages maintain healthy teeth and gums.

### Adelaide Dental Hospital

Featuring 89 dental chairs, the Adelaide Dental Hospital in the AHMS building is one of the advanced clinical training grounds for dentistry and oral health students. Run in partnership with the South Australian Dental Service, the hospital offers you the chance to work alongside professional dentists to deliver year-round oral health services for disadvantaged members of our community.

### Community Outreach Dental Program

The Community Outreach Dental Program provides dental and other health services for people experiencing homelessness or having difficulty accessing conventional care. The centre is run by the Adelaide Dental School, with assistance from a group of dedicated volunteer private dentists and allied health professionals, and has provided care for over 860 disadvantaged South Australians since its establishment in 2011.

### The Dental Simulation Clinic

As a dentistry and oral health student at the University of Adelaide you'll have the opportunity to perfect your skills in a clinical environment using the latest simulation technology. With 90 individual simulators available, dental students will spend more than 550 hours in the simulation clinic as part of their curriculum and oral health students more than 330.

### Dentistry and Oral Health clinical placement requirements

To undertake clinical placements in dentistry—a compulsory part of the degrees—you must satisfy a number of requirements. These include:

- Australian Health Practitioner Regulation Agency student registration
- criminal history clearance
- first aid certificate (including CPR)
- immunisations and prescribed communicable infections (PCI) screening
- tuberculosis screening
- clinical placement deed poll.

For more details, visit:  
[health.adelaide.edu.au/study-with-us/student-support/clinical-placements](http://health.adelaide.edu.au/study-with-us/student-support/clinical-placements)

### Inherent requirements

Inherent requirements are the fundamental parts of a degree that must be met by all students. They are the abilities, knowledge and skills you'll need to complete the degree. If you have a disability or chronic health condition, of course, reasonable adjustments can be made to help you meet the requirements. But this must not compromise academic integrity.

For more details, visit:  
[health.adelaide.edu.au/admissions/dentistry/inherent-requirements](http://health.adelaide.edu.au/admissions/dentistry/inherent-requirements)

### Time dedicated to study

If studying full-time, you can expect to spend about 25-35 hours (Monday to Friday) on campus each week, engaged in: classes, simulated learning activities, clinical instruction, small-group discovery sessions, tutorials and learning laboratories. Clinical courses will require out-of-hours involvement, and some courses require off-campus placements.

### Global Learning experiences

Dentistry students have the opportunity to undertake as part of their clinical placement, a two-week study tour to Vietnam, working as a clinical team in schools and private practices.

# BACHELOR OF DENTAL SURGERY

<b>SATAC CODE</b> 314122	<b>INDICATIVE SELECTION RANK/IB</b> minimum academic threshold of 90 / minimum academic threshold of 33
<b>DURATION</b> 5 years full-time	<b>CAMPUS</b> North Terrace

## PREREQUISITES

**SACE Stage 2:** Two subjects—one from Chemistry, Mathematical Methods (or Mathematical Studies if taken prior to 2017), Specialist Mathematics or Physics and one from Biology, Chemistry, Geology or Physics.  
**IB:** two science subjects (SL grade 4/ HL grade 3), or one science subject plus Mathematics (SL grade 4/HL grade 3). Note: subject prerequisites are applicable to all Bachelor of Dental Surgery entry pathways

## ADDITIONAL ENTRY REQUIREMENTS

To meet the minimum academic threshold for entry applicants must achieve a Selection rank of 90 or above, or an International Baccalaureate (IB) score of 33 or above (or the interstate/ overseas equivalent). New applications/preferences for Dental Surgery will not be considered after the closing date of 30 September 2019. Please note that strict quotas apply to the Bachelor of Dental Surgery degree. This degree does not contain elective courses — all courses are compulsory

## ASSUMED KNOWLEDGE

A necessary precursor for success in the Bachelor of Dental Surgery is a high proficiency in written and oral English.

[adelaide.edu.au/degree-finder](https://adelaide.edu.au/degree-finder)  
Search **dental**

## Keep your community smiling

Dentists work to improve oral health in our communities. They're lifelong learners who care about their patients and their work.

Dentistry is a science and an art. It's flexible and rewarding, and it changes lives.

## What will you do?

Our Bachelor of Dental Surgery supports you in becoming a highly skilled and patient-focused dentist. You will:

- build clinical experience starting in your very first year
- learn in Australia's newest dental teaching hospital, in the state-of-the-art Adelaide Health and Medical Sciences building
- explore the full range of dental therapies—from complex restorative to preventative-based treatments
- practise using equipment in our Dental Simulation Clinic
- tackle real-life case scenarios in teams
- benefit from extensive placements across metropolitan and rural settings
- improve lives through community outreach programs.

## Where could it take you?

You could work in a local or community dental clinic or provide dental care for people in the developing world. You might become a defence force dentist. Perhaps you'll be a researcher, making new discoveries to improve oral health care.

## Professional accreditation

The Bachelor of Dental Surgery is accredited by the Australian Dental Council.

## Graduate registration

To be eligible to work in Australia as a dentist, you'll be required to register with the Australian Health Practitioners Regulation Agency (AHPRA) and the Dental Board of Australia on completion of the degree. In order to register, you must comply with the English language skills requirements as determined by AHPRA.

For further details, visit:  
[ahpra.gov.au/Registration.aspx](https://ahpra.gov.au/Registration.aspx)

The Bachelor of Dental Surgery qualification is recognised by the:

- Dental Board of Australia (once registered, graduates are also eligible for membership of the Australian Dental Association)
- Dental Council of New Zealand (under the Trans-Tasman Mutual Recognition Agreement)
- Commission of Dental Accreditation of Canada (further examinations are necessary to work in Canada)
- Singapore Dental Council.

International applicants should note that successfully completing this degree may not qualify them to practise/register in their home country. Students will have to contact the relevant health registration bodies of their home country for further information.

## Industry placement

From first year, students undertake compulsory clinical placements in a range of metropolitan and rural settings. These can extend beyond the academic year and may include after-hours and weekend work.

## Application process

There are two distinct parts to the application process.

### 1. University Clinical Aptitude Test (UCAT) application

All applicants, with the exception of Aboriginal and Torres Strait Islander Pathway are required to register and sit for the UCAT.

The UCAT is a test used widely to help universities select applicants with the most appropriate mental abilities, attitudes, and professional behaviours required for new doctors to be successful in their clinical careers.

To register for the UCAT and to access the practice materials visit [ucat.edu.au](https://ucat.edu.au)

### 2. South Australian Tertiary Admissions Centre (SATAC) application

Applicants who have registered with UCAT must lodge their SATAC application by the September 2019 closing date. They will be asked to enter their UCAT identification number when they lodge their application on the SATAC website: [satac.edu.au](https://satac.edu.au)

## Merit selection criteria

Selection for the Bachelor of Dental Surgery is based on three components.

1. Performance in the UCAT\*.
2. Performance in a structured interview.
3. Achievement of a Selection rank of 90 or above (or equivalent) for appropriate Year 12 studies; or a credit average (GPA 5.0) for tertiary studies, or SAT rank in the top decile. Please note: invitation to an interview will be based solely on your UCAT performance.

## Dental Surgery Admissions Guide

You're required to read the *Dental Surgery Admissions Guide* before applying for the Bachelor of Dental Surgery. The guide covers essential information regarding:

- admission entry requirements
- key dates and deadlines
- the merit ranking process
- inherent requirements
- subject prerequisites and more.

At the Faculty of Health and Medical Sciences we regularly review the admission criteria and application processes for our degrees, and reserve the right to change them without notice. Please note that failure to read the *Dental Surgery Admissions Guide* will not be grounds for special consideration.

For more information, visit: [health.adelaide.edu.au/admissions/dentistry](https://health.adelaide.edu.au/admissions/dentistry)

## Information for international students only

### Bachelor of Dental Surgery admission overview

Applicants will be ranked in consideration for an offer based on their performance in the following three components:

- interview results—first ranking level
- Personal Qualities Assessment (PQA) results—second ranking level
- academic results—final ranking level (to separate applicants with equal-summed interview and PQA scores).

### Application process

1. All international applicants must submit a formal application online via the University's international website. Visit [international.adelaide.edu.au/apply](http://international.adelaide.edu.au/apply) and select *Step 4: Apply online*.
2. The online application will also serve as the registration to sit the PQA, and students will be prompted to select the relevant PQA test venue on the application system.
3. Applicants must submit their application and payments prior to 30 June 2019. Applicants who have not yet completed their current qualification will still be required to apply by this date. Closing dates are strictly adhered to and late submissions will not be accepted.

Please note: testimonials, character/school references, awards, certificates and predicted results do not make up any of the selection components and will not be considered. Details of performance in individual components of the admissions process are not given to applicants. Information regarding an applicant or application is confidential and cannot be released to members of family or friends.

For more information, visit: [health.adelaide.edu.au/admissions/dentistry](http://health.adelaide.edu.au/admissions/dentistry)

**“THE BEST PART OF THE BACHELOR OF DENTAL SURGERY IS INDISPUTABLY THE HANDS ON COMPONENT OF THE PROGRAM. DENTAL STUDENTS HAVE THE PRIVILEGE OF TAKING WHAT THEY LEARN AND APPLYING IT IMMEDIATELY.”**

Christopher Kawalec  
Bachelor of Dental Surgery

# BACHELOR OF ORAL HEALTH

<b>SATAC CODE</b> 314701	<b>INDICATIVE SELECTION RANK/IB</b> Minimum academic threshold of 70 / Minimum academic threshold of 25
<b>DURATION</b> 3 years full-time	<b>CAMPUS</b> North Terrace

**PREREQUISITES**  
**SACE Stage 2:** one 20-credit mathematics or science subject.  
**IB:** equivalent subjects

**ADDITIONAL ENTRY REQUIREMENTS**  
 Please note that strict quotas apply and late applications will not be considered. To meet the minimum academic threshold for entry, applicants must achieve a Selection rank of 70 or above, or an International Baccalaureate (IB) score of 25 or above, or the interstate/overseas equivalent.

**ASSUMED KNOWLEDGE**  
 A necessary precursor for success is a high proficiency in the written and oral use of the English language.

 [adelaide.edu.au/degree-finder](http://adelaide.edu.au/degree-finder)  
 Search **oral health**

## Advocate for oral health

Oral health is an essential component of a healthy life. Complex dental work contributes to this, but proper care and prevention are just as important.

While dentists perform specialised treatments, oral health therapists have broad expertise in general oral health care and education.

## What will you do?

Our Bachelor of Oral Health is an evidence-based degree that prepares you for providing general oral health care and health promotion. You will:

- learn in Australia's newest dental teaching hospital, in the state-of-the-art Adelaide Health and Medical Sciences building
- study within a close-knit oral health learning community
- benefit from early clinical exposure and extensive placements
- practise using equipment in our Dental Simulation Clinic
- tackle real-life case scenarios in teams
- improve lives through community outreach programs.

## Where could it take you?

You will be part of providing high quality clinical care for all ages. You might develop hygiene maintenance programs for people managing chronic gum pain. You could advise on public health policy or design and implement educational campaigns. Perhaps you'll open an oral health clinic with a team of oral health therapists and dentists you're yet to meet at the University of Adelaide.

## Professional accreditation

The Bachelor of Oral Health is accredited by the Dental Board of Australia.

## Graduate registration

To be eligible to work in Australia, Bachelor of Oral Health graduates are required to register with the Australian Health Practitioners Regulation Agency (AHPRA) on the completion of the degree. To gain professional registration through AHPRA and register as an oral health therapist with the Dental Board of Australia, all applicants must comply with the English language skills requirements as determined by AHPRA. For further details, visit [ahpra.gov.au/Registration.aspx](http://ahpra.gov.au/Registration.aspx)

Graduates are also eligible for membership of the Australian Dental and Oral Health Therapists Association and the Dental Hygienists Association of Australia.

International applicants should note that successful completion of this degree may not qualify them to practise/register in their home country. Students will have to contact the relevant health registration bodies of their home country for further information.

## Industry placement

From first year, students undertake compulsory clinical placements in a range of metropolitan and rural settings. These compulsory placements can extend beyond the academic year and can include after-hours and weekend work.

## Application process

There are two distinct parts to the application process.

### 1. University Clinical Aptitude Test (UCAT) application

All applicants, with the exception of Aboriginal and Torres Strait Islander Pathway are required to register and sit for the UCAT.

The UCAT is a test used widely to help universities select applicants with the most appropriate mental abilities, attitudes, and professional behaviours required for new doctors to be successful in their clinical careers.

To register for the UCAT and to access the practice materials visit [ucat.edu.au](http://ucat.edu.au)

### 2. South Australian Tertiary Admissions Centre (SATAC) application

Applicants who have registered with UCAT must lodge their SATAC application by the September 2019 closing date. They will be asked to enter their UCAT identification number when they lodge their application on the SATAC website: [satac.edu.au](http://satac.edu.au)

## Merit selection criteria

Selection will be based on three components.

1. Performance in the UCAT\*.
2. Performance in a structured interview.
3. Achievement of a Selection rank of 70 or above (or equivalent) for appropriate Year 12 studies; or a pass average for tertiary studies (preference may be given to applicants with science based tertiary studies); or a completed VET diploma or advanced diploma; or a satisfactory STAT rank. **Please note:** invitation to an interview will be based solely on your UCAT performance.

## Oral Health Admissions Guide

All applicants are required to read Oral Health Admissions Guide before applying for the Bachelor of Oral Health. The guide covers essential information regarding:

- admission entry requirements
- key dates and deadlines
- the merit ranking process
- inherent requirements
- subject prerequisites, and more.

At the Faculty of Health and Medical Sciences we regularly review the admission criteria and application processes for our degrees, and reserve the right to change them without notice. Please note that failure to read the Oral Health Admissions Guide will not be grounds for special consideration.

## Information for international students only

### Bachelor of Oral Health admission overview

Applicants will be ranked in consideration for an offer based on their performance in the following four components:

- academic results - meets threshold and final ranking level (to separate applicants with equal-summed interview and PQA scores).
- English Language Requirements. The IELTS (International English Language Testing System) Academic Test is the preferred English language proficiency qualification, but the University may accept other evidence of proficiency in English in individual cases.
- Personal Qualities Assessment (PQA) results - second ranking level
- interview results - first ranking level

### Application process

1. All international applicants must submit a formal application online via the University's international website. Visit [international.adelaide.edu.au/apply](http://international.adelaide.edu.au/apply) and select *Step 4: Apply online*.
2. The online application will also serve as the registration to sit the PQA, and students will be prompted to select the relevant PQA test venue on the application system.
3. Applicants must submit their application and payments prior to 30 June 2019. Applicants who have not yet completed their current qualification will still be required to apply by this date. Closing dates are strictly adhered to and late submissions will not be accepted.
4. In addition to this application, any student studying for an Australian Year 12 qualification, or for the IB in Australia, must also apply directly to the South Australian Tertiary Admissions Centre (SATAC) before SATAC's September closing date.

Please note: testimonials, character/school references, awards, certificates and predicted results do not make up any of the selection components and will not be considered. Details of performance in individual components of the admissions process are not given to applicants.

Information regarding an applicant or application is confidential and cannot be released to members of family or friends. For more information, visit: [health.adelaide.edu.au/admissions/dentistry](http://health.adelaide.edu.au/admissions/dentistry)

# MEDICINE

## The University of Adelaide's medical degree is the third-oldest in Australia, with a rich and prestigious history dating back to 1885.

Over 130 years of teaching and research has led to an impressive list of groundbreaking discoveries and achievements at the University that continue to transform health care and impact the world. Among the University's notable medicine alumni are Nobel Prize winners, pioneering researchers and world-renowned clinicians.

Following in their footsteps as an Adelaide Medical School student, you'll be provided with state-of-the-art education, training and facilities, and graduate ready to face the challenges of medical practice in the 21st century.

### Rural placements

As a Bachelor of Medicine and Bachelor of Surgery student you'll be required to undertake rural clinical placements. All Commonwealth-supported students (in both bonded and unbonded places) must complete at least four weeks of rural placements before graduation, with 25% of students required to complete a year-long rural placement.

If these 12-month places aren't filled by Commonwealth-supported students voluntarily, they'll be allocated in a random ballot.

### Medicine clinical placement requirements

To undertake your compulsory clinical placements you must satisfy the following requirements:

- Australian Health Practitioner Regulation Agency student registration
- criminal history clearance
- immunisations and prescribed communicable infections (PCI) screening
- tuberculosis screening
- clinical placement deed poll
- hand hygiene training.

If you don't meet these requirements you won't be able to complete your placements, putting you at risk of not graduating. Detailed information on the above criteria will be provided when you commence your studies.

To learn more:

[health.adelaide.edu.au/study-with-us/student-support/clinical-placements](http://health.adelaide.edu.au/study-with-us/student-support/clinical-placements)

### Inherent requirements

The University of Adelaide medical degree places substantial demands on students. The learning style and assessment techniques used are likely to be different from those

you've experienced elsewhere, requiring the ability to learn and work in small groups, and undertake self-directed learning.

Your clinical placements will also require significant time commitments which may include periods normally regarded as after-hours. You'll need physical and mental stamina, as well as flexibility with hours of attendance.

For more details, visit:

[health.adelaide.edu.au/admissions/medicine/inherent-requirements](http://health.adelaide.edu.au/admissions/medicine/inherent-requirements)

### Time dedicated to study

If studying full-time you can expect to spend about 25-35 hours (Monday to Friday) on campus each week, engaged in: classes, simulated learning activities, clinical instruction, small-group discovery sessions, tutorials and learning laboratories.

Clinical courses will require out-of-hours involvement, and some courses require off-campus placements.

### Global Learning experiences

As an Adelaide Medical School student you can undertake a four-week work-based training/Dean's elective in a local or overseas hospital or clinic of your choice prior to completing your degree.

Past students have worked and studied in countries including the UK, Nepal, Sri Lanka, South Africa and Canada.

## BACHELOR OF MEDICINE AND BACHELOR OF SURGERY

<b>SATAC CODE</b> 314552 standard CSP (non-bonded) 314553 Bonded Medical Place (BMP)	<b>INDICATIVE SELECTION RANK</b> minimum academic threshold of 90	<b>IB</b> minimum academic threshold of 34
<b>DURATION</b> 6 years full-time	<b>CAMPUS</b> North Terrace	

### PREREQUISITES

SACE Stage 2: Biology or Chemistry or Mathematical Methods. (If Stage 2 studies were undertaken prior to 2017, the equivalent subject was called Mathematical Studies), or equivalent.

IB: Biology (SL grade 4/HL grade 3) or Chemistry (SL grade 4/HL grade 3) or Mathematics (SL grade 4/HL grade 3), or equivalent. Note: Subject prerequisites are applicable to all Bachelor of Medicine and Bachelor of Surgery entry pathways.

### ADDITIONAL ENTRY REQUIREMENTS

To meet the minimum academic threshold for entry into the Bachelor of Medicine and Bachelor of Surgery degree at the University of Adelaide, students must achieve a Selection rank of 90 or above, or an International Baccalaureate score of 33 or above (or the interstate/overseas equivalent). However, a significantly higher Selection rank is usually required due to high levels of competition for places.

[adelaide.edu.au/degree-finder](https://adelaide.edu.au/degree-finder)  
Search **medicine**

### Empower yourself you to help others

Medicine is intellectually rewarding, challenging and inspiring. It requires critical problem-solving, teamwork and integrity.

Medical practitioners have an interest in wellbeing and the causes of ill health, working to protect and promote the health of individuals and communities. They are dedicated to alleviating pain and suffering, working out of comfort zones to care for vulnerable people.

### What will you do?

Our Bachelor of Medicine and Bachelor of Surgery will provide you with the knowledge, confidence and skills to excel in healthcare. You will:

- learn from clinicians in the new state-of-the-art Adelaide Health and Medical Sciences building
- work in small groups to solve problems relating to health and disease
- gain hands-on practical experience in simulated settings
- undertake clinical placements in hospitals and other health and medical organisations.

### Where could it take you?

Adelaide Medical School graduates are respected in the industry for their knowledge and experience. They're in demand for positions in public hospitals, private practice, public health, teaching, clinical research, aid organisations, the defence forces and more.

You might become a general practitioner in rural Australia, providing vital services for your community. You could be a specialist paediatrician who works with children and their families. Perhaps you'll pursue research and develop new knowledge about health and treatments.

### Professional accreditation

The Bachelor of Medicine and Bachelor of Surgery is accredited by the Medical Board of Australia.

**"I HAVE MET SOME OF THE BEST PEOPLE IN ADELAIDE AND HAVE MADE LIFE-LONG FRIENDS. I HAVE DONE SO MANY AMAZING THINGS SINCE MOVING HERE, INCLUDING ONCE IN A LIFETIME OPPORTUNITIES SUCH AS A DAY WITH THE ROYAL FLYING DOCTORS SERVICE."**

Ashlee Nicol  
Bachelor of Medicine and Bachelor of Surgery

## Graduate registration

To be eligible to practise in Australia after completing your Bachelor of Medicine and Bachelor of Surgery you'll need to register with the Australian Health Practitioners Regulation Agency (AHPRA). This will require compliance with AHPRA's English language skills requirements. For further details, visit [ahpra.gov.au/Registration.aspx](http://ahpra.gov.au/Registration.aspx)

New Zealand citizens applying to the Bachelor of Medicine and Bachelor of Surgery intending to practise in Australia after graduation will also need to be aware of criteria for obtaining a Medicare Provider Number.

International applicants should note that successfully completing this degree may not qualify them to practise/register in their home country. Students will have to contact the relevant health registration bodies of their home country for further information.

## Internships

Internships are separate from the medical degree, and the University of Adelaide does not facilitate internship placements.

Further information regarding internship allocations can be found on the SA Health Careers and SA Medical Education and Training website:

- [sahealthcareers.com.au](http://sahealthcareers.com.au)
- [samet.org.au](http://samet.org.au)

## Admissions

### Application process

There are two distinct parts to the application process.

#### 1. University Clinical Aptitude Test (UCAT) application

All applicants, with the exception of Aboriginal and Torres Strait Islander Pathway are required to register and sit for the UCAT.

The UCAT is a test used widely to help universities select applicants with the most appropriate mental abilities, attitudes, and professional behaviours required for new doctors to be successful in their clinical careers.

To register for the UCAT and to access the practice materials visit [ucat.edu.au/ucat-anz/](http://ucat.edu.au/ucat-anz/)

#### 2. South Australian Tertiary Admissions Centre (SATAC) application

Once you've registered with UCAT, you must lodge your SATAC application online at [satac.edu.au](http://satac.edu.au) by the September 2019 closing date. You'll be asked to enter your UCAT identification number when doing so.

## Selection criteria

Entry to the Bachelor of Medicine and Bachelor of Surgery is based on four components:

1. Performance in the Undergraduate Medicine and Health Sciences Admission Test (UCAT)\*.
2. Performance in an interview\*\*.
3. Achievement of a Selection rank of 90 or above for appropriate Year 12 studies; a credit average (GPA 5.0) for tertiary studies; or a Special Tertiary Admissions Test rank in the top decile.
4. Prerequisite subjects.

## Rural background entry pathway

If you've lived at least five consecutive years from birth, or 10 years cumulatively, in an area with an Australian Standard Geographic Classification of AGS-RA 2 -5, you're eligible to apply for entry via our rural background entry pathway.

To check your location's classification, please refer to the Department of Health and Ageing's 'DoctorConnect' website: [health.gov.au/internet/otd/Publishing.nsf/Content/RA-intro](http://health.gov.au/internet/otd/Publishing.nsf/Content/RA-intro)

Some conditions apply. To find out more, visit [adelaide.edu.au/study](http://adelaide.edu.au/study) and select *Entry Pathways* from the menu.

## Commonwealth-supported places

Two types of Commonwealth-supported places (CSP) are offered in the Bachelor of Medicine and Bachelor of Surgery: Standard CSP (non-bonded); and Bonded Medical Place (BMP). The BMP requires you to enter into a contract with the Australian Government.

For more detailed information, visit: [health.gov.au/bmpscheme](http://health.gov.au/bmpscheme)

## Medicine Admissions Guide

All applicants are required to read the *Medicine Admissions Guide* before applying for the Bachelor of Medicine and Bachelor of Surgery. The guide covers essential information regarding:

- admission entry requirements
- key dates and deadlines
- the merit ranking process
- inherent requirements
- subject prerequisites, and more.

At the Faculty of Health and Medical Sciences we regularly review the admission criteria and application processes for our degrees, and reserve the right to change them without notice. Please note that failure to read the *Medicine Admissions Guide* will not be grounds for special consideration.

For more information, visit: [health.adelaide.edu.au/admissions/medicine](http://health.adelaide.edu.au/admissions/medicine)

## Information for international students only

### Bachelor of Medicine and Bachelor of Surgery admission overview

Applicants will be ranked in consideration for an offer based on their performance in the following three components:

- interview results - first ranking level
- Personal Qualities Assessment (PQA) results - second ranking level
- academic results - meets threshold and final ranking level (to separate applicants with equal-summed interview and PQA scores).

### Application process

1. All international applicants must submit a formal application online via the University's International website. Visit [international.adelaide.edu.au/apply](http://international.adelaide.edu.au/apply) and select *Step 4: Apply online*.
2. The online application will also serve as the registration to sit the PQA, and students will be prompted to select the relevant PQA test venue on the application system.
3. Applicants must submit their application and payments prior to 30 June 2019. Applicants who have not yet completed their current qualification will still be required to apply by this date. Closing dates are strictly adhered to and late submissions will not be accepted.

**Please note:** testimonials, character/school references, awards, certificates and predicted results do not make up any of the selection components and will not be considered. Details of performance in individual components of the admissions process are not given to applicants. Information regarding an applicant or application is confidential and cannot be released to family members or friends.

For more information, visit: [health.adelaide.edu.au/admissions/medicine](http://health.adelaide.edu.au/admissions/medicine)

\* Applicants must register to sit the UCAT. For more information including the registration closing date and test, visit: [ucat.edu.au/ucat-anz](http://ucat.edu.au/ucat-anz)

\*\* There will be one round of interviews held for 2020 entry. Interview invitations will be based on performance in the UCAT, with each of the three UCAT sections having equal weight. Please note the University reserves the right to run additional interview sessions if necessary.

# NURSING

## Nursing is an exciting, diverse and rewarding career in which you can make a true difference in people's lives.

Qualified nurses have a wide range of career options, from working in public or private hospitals, to community health care, aid organisations and regional health care. The University of Adelaide's nursing degree is highly regarded in the profession. Taught by accomplished practising clinicians, it will give you a solid foundation in academic theory and real-world experience, with clinical exposure beginning early in your degree.

You'll graduate perfectly equipped to step into a successful career.

### Inherent requirements

Our nursing degree places substantial demands on students. The learning style and assessment techniques used are likely to be different from those you've experienced elsewhere. You'll need physical and mental stamina. And you'll

have to be flexible regarding hours of attendance. Your clinical placements, for example, all compulsory, will require significant time commitments, often after-hours.

They may also take place outside the normal academic year, and could require attendance at distant locations—whether metropolitan, rural or remote.

For more details, visit: [health.adelaide.edu.au/nursing/future-students/requirements](http://health.adelaide.edu.au/nursing/future-students/requirements)

### Nursing clinical placement requirements

To undertake your compulsory clinical placements you must satisfy a number of requirements. These include:

- Australian Health Practitioner Regulation Agency student registration
- criminal history clearance
- immunisation and prescribed communicable infections screening
- tuberculosis screening
- basic life support
- manual handling
- clinical placement deed poll
- hand hygiene.

If you don't meet these requirements you won't be able to complete your placements, putting you at risk of not graduating. Detailed information on the above criteria will be provided when you commence your studies.

To learn more, visit: [health.adelaide.edu.au/study-with-us/student-support/clinical-placements](http://health.adelaide.edu.au/study-with-us/student-support/clinical-placements)

### Time dedicated to study

Nursing requires a strong commitment. If studying full-time, you can expect to spend up to 40 hours per week on-campus in lectures, tutorials or simulation practicals. This may occasionally include compulsory weekend sessions.

You'll also attend compulsory clinical placements from first year, which may include shifts across a 24-hour roster (again, possibly including weekends).

### Global learning experiences

As a nursing student you'll have the opportunity to travel to Germany, Austria, Singapore or Japan to take part in clinical placements/observations as part of your studies.

**"THROUGH COMPLETING A LARGE NUMBER OF CLINICAL PLACEMENTS, I HAVE BEEN ABLE TO DEVELOP AND REFINE MY CLINICAL SKILLS AND AS A RESULT FEEL CONFIDENT IN TRANSITIONING INTO FULL-TIME WORK."**

Maddison Cuk  
Bachelor of Nursing

## BACHELOR OF NURSING

<b>SATAC CODE</b> 324341	<b>INDICATIVE SELECTION RANK/IB</b> 75.4 / 27
<b>DURATION</b> 3 years full-time	<b>CAMPUS</b> North Terrace, Teaching Hospitals

### PREREQUISITES

The Bachelor of Nursing has not formal prerequisites. However, students will find Year 12 Biology and Year 10 or above Mathematics (or equivalents) useful

[adelaide.edu.au/degree-finder](https://adelaide.edu.au/degree-finder)  
Search **nursing**

### Make a difference every day

Nurses are highly respected members of the community. They help treat patients in all sorts of health care settings and touch lives with empathy, compassion and humour.

Nursing is flexible, exciting and challenging. It's a rewarding profession full of problem-solvers and pillars of strength.

The Adelaide Nursing School is ranked first in South Australia for graduate employment and third in the nation for overall educational experience\*.

### What will you do?

Our Bachelor of Nursing supports you in becoming a confident and responsible registered nurse. You will:

- develop hands-on skills in high-tech simulation settings
- benefit from clinical and non-clinical placements across metropolitan and rural locations
- explore contemporary issues around health promotion, maintenance, advocacy and care
- undertake interprofessional learning with other health care students.

### Where could it take you?

You'll emerge with a professional qualification recognised Australia-wide, ready to pursue rewarding roles in rural communities, operating theatres, emergency wards, and a multitude of other health care environments.

Note: if you join in the middle of the year, you'll initially only be able to study this degree part-time. There are exceptions for international students, who'll be issued an alternative study plan. For more visit [adelaide.edu.au/degree-finder](https://adelaide.edu.au/degree-finder), search *nursing* and view Degree Structure.

### Professional accreditation

The Bachelor of Nursing is accredited by the Australian Nursing and Midwifery Accreditation Council. In Australia, all undergraduate programs leading to registration as a nurse must be accredited every five years.

The curriculum at the University of Adelaide is subject to accreditation with the Nursing and Midwifery Board of Australia from 2018.

### Graduate registration

Just prior to completing the degree, you'll need to apply to the Australian Health Practitioners Regulation Agency (AHPRA) for registration with the Nursing and Midwifery Board of Australia as either an enrolled or registered nurse. This will, of course, require you to comply with AHPRA's English language skills requirements.

### Industry placement

One of this innovative degree's most important strengths is the substantial length of time dedicated to learning in practice. You will be introduced to the clinical environment in a structured manner, enabling you to progressively integrate your growing knowledge with hands-on care delivery.

You'll regularly work in clinical areas as part of a health care team, receiving additional clinical support from our lecturers. Your placements will vary across different practice settings—from acute to tertiary and primary health care—and could be undertaken with a range of providers, including the Royal Adelaide Hospital. Naturally, you'll need to comply with each site's prescribed policies and procedures.

Clinical placements are compulsory and not restricted to the University teaching semesters. They will take place in both metropolitan and rural areas of South Australia and require you to attend early, late, night and weekend shifts. Therefore, it's recommended that you have access to a mode of transport throughout the degree.

All costs associated with the rural placement—including accommodation, food and transport—are your responsibility. Depending on the locations available, this could exceed \$1,000.

On all placements you'll be required to comply with our Adelaide Nursing School dress standards. The cost of uniforms, which must be worn on placement, are also your responsibility.

- AHPRA student registration
- criminal history clearance and a national police clearance
- various immunisations
- prescribed communicable infections screening
- tuberculosis screening.

If you don't meet any of the above requirements you're at risk of not graduating, as placements are a compulsory component of the degree. For further information, visit: [health.adelaide.edu.au/study-with-us/student-support/clinical-placements](https://health.adelaide.edu.au/study-with-us/student-support/clinical-placements)

GLOBAL HUMAN  
HEALTH

# HEALTH AND MEDICAL SCIENCES

## As a Health and Medical Sciences graduate you'll acquire a broad range of knowledge and skills enabling you to improve human health, and succeed in a wide variety of careers.

Our Bachelor of Health and Medical Sciences is a three-year degree. In the first year, you'll cover the fundamentals of human anatomy and public health, with a complementary focus on developing communication and learning skills.

In second year, you'll gain in-depth knowledge in selected subject areas—including pathology, physiology, pharmacology, health promotion and epidemiology—and develop problem-solving and group-work skills by investigating global health challenges.

In third year, you'll gain extensive hands-on and workplace experience by completing a major in your chosen field.

The degree draws on all health sciences disciplines including medicine, dentistry, nursing, psychology and public health. This gives you the flexibility to select one of seven different majors spread across two different streams: Medical Health and Lifespan Health.

### Research experience

In third-year you'll undertake a year-long research project/internship. This provides students with an opportunity to:

- participate firsthand in research within state-of-the-art research facilities
- use skills acquired in the classroom in a real-world setting, and learn what classroom time can't teach
- experience a prospective career path, and network with professionals and potential employers
- gain new skills and the confidence to be work-ready.

### Global learning experiences

Study Abroad and Student Exchange opportunities in second and third year offer students a global perspective on major health challenges, improve career paths and enable students to develop intercultural and personal skills and confidence. Study tours are available in some majors.

**"THE UNIVERSITY OF ADELAIDE PROVIDED ME SO MANY OPPORTUNITIES TO FIND MY PASSION AND DRIVE FOR FUTURE ENDEAVOURS. FROM THE WIDE RANGE OF COURSES AND TOPICS TO LEARN, STUDYING AT UNIVERSITY HAS BEEN A GREAT LIFE EXPERIENCE."**

Medical Sciences (Honours)

## BACHELOR OF HEALTH AND MEDICAL SCIENCES

<b>SATAC CODE</b> 324951	<b>INDICATIVE SELECTION RANK/IB</b> 65.1 / 24	<b>GUARANTEED ENTRY</b> 80
<b>DURATION</b> 3 years full-time	<b>CAMPUS</b> North Terrace	

 [adelaide.edu.au/degree-finder](https://adelaide.edu.au/degree-finder)  
Search **health**

### Improve the health of your community

Are you fascinated by the human body? Do you want to help tackle important health issues facing our world today? Studying health and medical sciences is mentally stimulating and hands-on. It's about fighting disease through scientific research and actively promoting wellbeing. Our Bachelor of Health and Medical Sciences ranks first in South Australia for teaching quality, and third in Australia for overall education experience\*.

### What will you do?

Our degree supports you in developing relevant and transferable skills that are highly sought-after in research and health industries. You will:

- explore human biology and public health in depth
- gain hands-on research experience in world-class facilities
- enjoy cutting-edge virtual reality learning
- work in small groups to solve problems relating to health and disease
- undertake a year-long research placement or internship
- increase your understanding of global health issues with opportunities to study overseas.

You'll also pursue a specialisation in one of a diverse range of areas:

- Neurosciences
- Clinical Trials
- Addiction and Mental Health
- Nutritional Health
- Public Health
- Medical Sciences
- Reproductive and Childhood Health.

### Where could it take you?

You could work in a medical laboratory or clinical setting, seeing modern medicine improve vulnerable patients' health. You might be the first to witness ground-breaking medical research results. Perhaps you'll help populations make healthy choices, or change the environments in which people live, grow, work, and play, so that everyone can lead healthy lives. Previous graduates have gone on to high-level, influential positions in a range of health organisations and government departments throughout Australia and abroad.

\*Good Universities Guide 2017/18

## BACHELOR OF HEALTH AND MEDICAL SCIENCES (ADVANCED)

<b>SATAC CODE</b> 324961	<b>INDICATIVE SELECTION RANK/IB</b> 95.1 / 37
<b>DURATION</b> 3 years full-time	<b>CAMPUS</b> North Terrace

 [adelaide.edu.au/degree-finder](https://adelaide.edu.au/degree-finder)

### Be a health leader

Want to tackle humanity's greatest health challenges? Aspire to be outstanding in your field? The Bachelor of Health and Medical Sciences (Advanced) is a distinctive degree for students who want to excel.

### What will you do?

Our advanced degree emphasises innovation and entrepreneurship, as well as applied clinical and research skills. You will:

- explore health from cellular, system, individual and population perspectives
- study solutions to frontline healthcare problems in a unique "hacking health" course
- learn about health collaborations and get hands-on training in our state-of-the-art Adelaide Health Simulation
- develop strategies for getting health discoveries into practice with the University's Entrepreneurship, Commercialisation and Innovation Centre
- learn from award-winning health researchers
- undertake a year-long research placement or internship.

You'll also pursue a specialisation in one of a diverse range of areas:

- Neurosciences
- Clinical Trials
- Addiction and Mental Health
- Nutritional Health
- Public Health
- Medical Sciences
- Reproductive and Childhood Health.

### Where could it take you?

You'll emerge with enhanced skills for either higher studies or leadership roles in your chosen career.

You could lead programs to improve the health of vulnerable populations, develop policies to prevent obesity or tackle anti-microbial resistance. You might win the Nobel Prize in Medicine through ground-breaking research. Perhaps you'll outsmart cancer with an innovative approach to treatment.

# PSYCHOLOGY

**Psychology students at the University of Adelaide tackle real-world global issues and develop an understanding of how Psychology can make a difference.**

With more than 35 majors to choose from study can be tailored to your interests and career aspirations.

### **Accreditation**

All University psychology degrees are accredited by the Australian Psychology Accreditation Council.

### **Time dedicated to study**

Full-time psychology students can expect to spend about 12-16 hours on campus each week in lectures or tutorials, between 8 am and 9 pm, Monday to Friday. For students enrolled in courses that incorporate practicals, some out-of-hours involvement may also be required.

### **Guaranteed entry**

A wide range of University of Adelaide degrees now have a pre-set entry score, known as 'guaranteed entry', instead of a cut-off that varies each year. For guaranteed entry into a degree\*, students must meet

the degree prerequisites and achieve the nominated selection rank or above (including bonus points, if eligible). It's that straightforward. Students who think they might score under the nominated selection rank, however, shouldn't stress. There may be alternative entry pathways.

For more details, visit [adelaide.edu.au](http://adelaide.edu.au) and search guaranteed entry.\* There are some exceptions. Check the University website for full details.

### **Global learning experiences**

Psychology students have the opportunity to study overseas and can select from a wide range of partner universities that offer semester exchange programs.

### **Registration as a psychologist**

A minimum six-year sequence of education and training in psychology is required for an individual to become eligible for general registration as a psychologist in Australia.

**"THE BALANCE BETWEEN ACADEMIC AND SOCIAL LIFE HAS BEEN WELL-EMPHASISED BY THE UNIVERSITY, AND THE ENGAGEMENT OF THE STAFF WITH THE STUDENTS IS INCREDIBLE. THIS UNIVERSITY IS PERFECT FOR ANYONE SEEKING TO ACHIEVE A HIGH ACADEMIC STANDING IN A FUN SUPPORTIVE ENVIRONMENT."**

Search **psychological**

### Uncover our inner workings

Are you fascinated by the human mind? Do you wonder what motivates our behaviour?

Psychological science investigates the way people think, behave, feel and learn. It studies processes of the human mind—including personality, intelligence and memory—so that we can better understand ourselves.

### What will you do?

Our Bachelor of Psychological Science nurtures creativity, analysis and communication skills. You will:

- learn about human development and the biological bases of behaviour
- investigate the mechanics of perception and learning
- explore the nature of motivation and emotion
- gain experience with psychological tests
- develop skills for counselling
- choose between over 35 majors and electives from related disciplines
- design and undertake meaningful research projects.

### Where could it take you?

You could become a social psychologist, doing large-scale research to change the way we go about our lives. You might work in community services with people of all ages and backgrounds, or in market research and advertising. Perhaps you'll go on to further study in the field and become a qualified psychologist.

### Professional accreditation

This program has been accredited by the Australian Psychology Accreditation Council. Graduates who have completed this program will be eligible to apply for an honours year, followed by a two-year postgraduate qualification. This sequence of study will lead to professional registration as a psychologist.

## BACHELOR OF PSYCHOLOGY (ADVANCED) HONOURS

<b>SATAC CODE</b> 334701	<b>INDICATIVE SELECTION RANK/IB</b> 95 / 37	
<b>DURATION</b> 4 years full-time	<b>CAMPUS</b> North Terrace

### Understand how people think, feel and behave

Psychology is a fascinating field of study concerned with minds and mental health. Psychology students develop important skills that enable them to understand their own and others' behaviour, help people, solve social problems, and critically analyse information.

### What will you do?

Our new Honours Degree of Bachelor of Psychology (Advanced) will give you the knowledge and qualities needed to kickstart your career in psychology. You will:

- solve high-level problems and analyse human behaviour
- develop listening, empathy and interviewing skills
- explore cyber-psychology, human ethics, social media and online safety
- address real-world global issues and learn how psychology can make a difference
- gain valuable experience with psychological tests and counselling
- design and undertake meaningful research projects.

**Note:** You must maintain a GPA of 6 to progress through this degree.

### Where could it take you?

Your degree will equip you with skills and knowledge about human thinking and behaviour that many different employers value, including for working with children, the police, in education, health promotion, training and assessment in organisations, marketing, counselling, career guidance, research and more. You'll also be eligible to apply for Masters-level courses in Psychology that will enable you to become a registered psychologist.

This degree is conditionally accredited with the Australian Psychology Accreditation Council.

### Professional accreditation

This degree is conditionally accredited with the Australian Psychology Accreditation Council.

**PSYCHOLOGY STUDENTS AT THE UNIVERSITY OF ADELAIDE TACKLE REAL-WORLD GLOBAL ISSUES AND DEVELOP AN UNDERSTANDING OF HOW PSYCHOLOGY CAN MAKE A DIFFERENCE. STUDY CAN BE TAILORED TO YOUR INTERESTS AND CAREER ASPIRATIONS.**

# DOUBLE AND RELATED DEGREES

## BACHELOR OF SCIENCE OR BACHELOR OF SCIENCE (ADVANCED)

<b>SATAC CODE</b> 314581 or 324651	<b>INDICATIVE SELECTION RANK/IB</b> Science: 65.1 / 24 Science (Advanced): 95 / 37	
<b>DURATION</b> 3 years full-time (or part-time equivalent)	<b>CAMPUS</b> North Terrace	<b>GUARANTEED ENTRY</b> 75 and 95 (Advanced)

### ASSUMED KNOWLEDGE

**SACE Stage 2:** Chemistry, Mathematical Methods, and Physics.

 [adelaide.edu.au/degree-finder](https://adelaide.edu.au/degree-finder)  
Search **science**

The Bachelor of Science degree is ideal for students who love science but aren't sure which path to take. It provides the most flexibility of all the science degrees, as students can design their own degree by choosing from a diverse range of science courses according to their interests and strengths.

Love scientific enquiry and research? Aspire to be outstanding in your field? The Bachelor of Science (Advanced) is a distinctive vocational degree for high-achieving students who want to excel in their chosen career. You'll graduate with enhanced research and project management skills for further study or leadership roles in your chosen specialisation.

You could solve global ecology challenges or win the Nobel Prize as a quantum physicist. You might spearhead an entirely new career in space entrepreneurship, genomic editing, or stem cell engineering. Perhaps you'll communicate science as an educator, politician, or legislator. Whatever you choose, you'll be prepared to lead the world.

## BACHELOR OF SCIENCE (BIOMEDICAL SCIENCE)

<b>SATAC CODE</b> 314091	<b>INDICATIVE SELECTION RANK/IB</b> 70 / 25	
<b>DURATION</b> 3 years full-time (or part-time equivalent)	<b>CAMPUS</b> North Terrace	<b>GUARANTEED ENTRY</b> 75

### PREREQUISITES

**SACE Stage 2:** Chemistry plus one of Physics, Mathematical Methods, Specialist Mathematics, Biology, Geology, Scientific Studies, Agriculture and Horticulture, Agricultural and Horticultural Science, or Nutrition.  
**IB:** Chemistry (SL grade 4/HL grade 3) and one other Science subject (SL grade 4/HL grade 3) or Mathematics (SL grade 4/HL grade 3).

### ASSUMED KNOWLEDGE

**SACE Stage 2:** Mathematical Methods, and Physics.

 [adelaide.edu.au/degree-finder](https://adelaide.edu.au/degree-finder)  
Search **biomedical**

Do you have an interest in medical biology and human health? Are you keen to discover more about human disease, from its cause and diagnosis through to novel treatments and cures? Biomedical scientists are vitally important. They advance world-changing discoveries to improve the health and quality of people's lives. The University of Adelaide is ranked in the top 100 in the world for biological sciences and best in South Australia\*.

### What will you do?

Our Bachelor of Science (Biomedical Science) gives you the knowledge and skills to access an emerging global sector. You will:

- build a broad knowledge base in medical and molecular biology
- explore normal and abnormal functions of the human body
- learn directly from world-class biomedical researchers and educators
- carry out extensive biomedical research projects
- gain real-world practical insights from industry lecturers and placements.

Areas of specialisation include:

- Biochemistry
- Genetics
- Microbiology & Immunology

### Where could it take you?

You could be running a laboratory, performing cutting-edge cancer research or modifying genes for vaccines. You might design drugs for the pharmaceutical industry. Perhaps you'll work directly with patients after completing a degree in postgraduate medicine or allied health.

# UNDERGRADUATE DEGREE INDEX

Students with strong interests in more than one area of study may wish to consider a double or combined degree. For a comprehensive list of available degrees, visit: [www.adelaide.edu.au/degree-finder](http://www.adelaide.edu.au/degree-finder)

## Architecture, Law, Business and Economics

- Bachelor of Accounting
- Bachelor of Accounting and Corporate Finance
- Bachelor of Architectural Design
- Bachelor of Business Management
- Bachelor of Business Management and Accounting
- Bachelor of Business (Global)
- Bachelor of Commerce
- Bachelor of Corporate Finance
- Bachelor of Economics
- Bachelor of Economics (Advanced)
- Bachelor of Finance
- Bachelor of Innovation and Entrepreneurship
- Bachelor of International Business
- Bachelor of Laws
- Bachelor of Marketing
- Bachelor of Project Management
- Diploma in Business

## Arts

- Bachelor of Arts
- Bachelor of Arts (Advanced)
- Bachelor of Creative Arts
- Bachelor of Criminology
- Bachelor of Environmental Policy and Management
- Bachelor of International Development
- Bachelor of International Relations
- Bachelor of Languages
- Bachelor of Media
- Bachelor of Music
- Bachelor of Music (Advanced)
- Bachelor of Music Theatre
- Bachelor of Peace and Conflict Studies
- Bachelor of Philosophy, Politics and Economics
- Bachelor of Sociology
- Bachelor of Teaching (Middle) with Bachelor of Arts

- Bachelor of Teaching (Secondary) with Bachelor of Arts
- Bachelor of Teaching (Secondary) with Bachelor of Economics
- Bachelor of Teaching (Middle) with Bachelor of Mathematical and Computer Sciences
- Bachelor of Teaching (Secondary) with Bachelor of Mathematical and Computer Sciences
- Bachelor of Teaching (Middle) with Bachelor of Music
- Bachelor of Teaching (Secondary) with Bachelor of Music
- Bachelor of Teaching (Middle) with Bachelor of Science
- Bachelor of Teaching (Secondary) with Bachelor of Science
- Diploma in Arts
- Diploma in Languages
- Diploma in Music
- Diploma in Music (Commercial Music and Songwriting)
- Diploma in Music (Music Production)

## Engineering, Computer and Mathematical Sciences

- Bachelor of Computer Science
- Bachelor of Computer Science (Advanced)
- Bachelor of Engineering (Honours) (Architectural and Structural)
- Bachelor of Engineering (Honours) (Chemical)
- Bachelor of Engineering (Honours) (Civil)
- Bachelor of Engineering (Honours) (Electrical and Electronic)
- Bachelor of Engineering (Honours) (Environmental)
- Bachelor of Engineering (Honours) (Mechanical)
- Bachelor of Engineering (Honours) (Mining)
- Bachelor of Engineering (Honours) (Petroleum)
- Bachelor of Engineering (Honours) (Petroleum) with majors
- Bachelor of Engineering (Honours) (Software)
- Bachelor of Engineering (Honours) – Flexible Entry

- Bachelor of Engineering (Honours) – Engineering Pathway
- Bachelor of Mathematical Sciences
- Bachelor of Mathematical Sciences (Advanced)
- Bachelor of Mathematical and Computer Sciences

## Health

- Bachelor of Dental Surgery
- Bachelor of Health and Medical Sciences
- Bachelor of Health and Medical Sciences (Advanced)
- Bachelor of Medicine and Bachelor of Surgery
- Bachelor of Nursing
- Bachelor of Oral Health
- Bachelor of Psychological Science
- Bachelor of Psychology (Advanced)/Honours

## Sciences

- Bachelor of Agricultural Sciences
- Bachelor of Food and Nutrition Science
- Bachelor of Science
- Bachelor of Science (Advanced)
- Bachelor of Science (Animal Science)
- Bachelor of Science (Animal Behaviour)
- Bachelor of Science (Biomedical Science)
- Bachelor of Science (Biotechnology)
- Bachelor of Science (Ecotourism)
- Bachelor of Science (High Performance Computational Physics) (Honours)
- Bachelor of Science (Marine Biology)
- Bachelor of Sciences (Mineral Geoscience)
- Bachelor of Science (Space Science and Astrophysics)
- Bachelor of Science (Veterinary Bioscience)
- Bachelor of Science (Wildlife Conservation Biology)
- Bachelor of Science and Entrepreneurship
- Bachelor of Viticulture and Oenology
- Bachelor of Veterinary Technology

# APPLYING TO THE UNIVERSITY OF ADELAIDE

## How to apply

Applications to University of Adelaide undergraduate programs are made online via SATAC: [satac.edu.au](http://satac.edu.au)

The application closing date for 2020 entry is 30 September 2019. Bachelor of Medicine and Bachelor of Surgery and Bachelor of Dental Surgery applicants should refer to the UCAT website for information on the University Clinical Aptitude Test (UCAT) including application and test dates: [ucat.edu.au/ucat-anz/](http://ucat.edu.au/ucat-anz/)

International students should refer to: [international.adelaide.edu.au/apply](http://international.adelaide.edu.au/apply)

## Entry pathways

There are many pathways applicants can take to apply to the University of Adelaide, including SACE, International Baccalaureate (IB), STAT, TAFE, preparatory programs, foundation study and more.

To find out more about the available pathways, visit [adelaide.edu.au/study](http://adelaide.edu.au/study) and select *Entry Pathways* from the menu.

## Fees and costs

In 2019, student contributions for Commonwealth supported students studying an equivalent full-time study load were as follows.

### Band 1:

Humanities, behavioural sciences, social studies, foreign languages, visual and performing arts, education, nursing, clinical psychology. .... \$6,566

### Band 2:

Computing, built environment, allied health, other health, engineering, surveying, agriculture, science, mathematics, statistics. ... \$9,359

### Band 3:

Law, dentistry, medicine, veterinary science, accounting, administration, economics, commerce..... \$10,958

These annual fees are indicative only as actual charges are determined at the course level based on the area of study. Fees may increase in 2020.

## HECS Higher Education Loan

This program, known as HECS-HELP assists eligible students to pay their student contribution. Further information is available at: [www.studyassist.gov.au](http://www.studyassist.gov.au)

## Scholarships

The University of Adelaide has a range of scholarships available to students from a variety of backgrounds and academic levels.

Comprehensive information about scholarships, and how to apply, can be obtained by contacting us (refer below for details) or visiting the scholarships website: [adelaide.edu.au/scholarships](http://adelaide.edu.au/scholarships)

## Student services and amenities fee

Students are charged an annual student services and amenities fee (SSAF) to assist with the funding of student services and amenities at the University.

In 2019, the SSAF amount for full-time students was \$303, and for part-time students it was \$227. Fees may increase in 2019. Eligible students may defer this fee to an SA-HELP loan.

For further information about the SSAF and SA-HELP visit: [adelaide.edu.au/student/finance](http://adelaide.edu.au/student/finance) and select *Other Fees and Charges*.

## Additional costs

Students may be required to pay for specialist equipment, reading materials, etc. Students are advised not to purchase any equipment until they receive their faculty/school handbook, available during orientation.

For more information on other program-related fees and charges, visit [adelaide.edu.au/student/finance](http://adelaide.edu.au/student/finance) and select *Other Fees and Charges*.

## Adjustment Factors

SATAC centrally administer a South Australian Universities Adjustment Factors Scheme. The two schemes are the SA Universities Equity Scheme and the SA Language, Literacy and Mathematics Adjustment Factors Scheme.

For more details, please visit [adelaide.edu.au](http://adelaide.edu.au) and search *Adjustment Factors*.

## Degree intake

Many undergraduate degrees will allow students to begin study in February or July. Please refer to individual degrees on Degree Finder ([www.adelaide.edu.au/degree-finder](http://www.adelaide.edu.au/degree-finder)) to check whether midyear entry is available.

Where Degree Finder states 'subject to availability' applicants should contact Ask Adelaide (refer below for details) to check whether midyear entry is available.

## Deferring your studies

Most undergraduate degrees can be deferred for up to two years. Please refer to specific degrees for exceptions.

## English language requirements for international students

All international students undertaking an Australian year 12 program are required to achieve a Pass grade or above in one of the approved English as a Second Language or English language subjects.

If an applicant attempts, but does not pass, the English language subject then alternative options, such as an acceptable English language proficiency test result, may be arranged.

Details of recognised subjects and recognised tests and requirements are available by visiting [international.adelaide.edu.au/apply](http://international.adelaide.edu.au/apply), selecting *Admissions Information* from the menu, then *English Language Requirements*.

Successful completion of the International Baccalaureate (IB) diploma meets the English language requirements of the University of Adelaide.

## Permanent residency

International students who have studied an Australian year 12 program or the IB and expect to be granted Australian permanent residency before the commencement of their university study must contact the International Office.

To contact the International Office for more information, visit [international.adelaide.edu.au](http://international.adelaide.edu.au), select *About Us* from the menu, then *International Office* and *Enquire Now*.

## Accommodation

The University understands that finding the right accommodation is important to successful study. For accommodation options and costs please visit: [adelaide.edu.au/accommodation](http://adelaide.edu.au/accommodation)

## More information

Answer your questions using our online Knowledge Base or our helpful staff can respond via email to your enquiries.

Please see back cover for contact details

## Admission transparency

We believe in providing clear and relevant information to help student choose the best university and degree to study. Find out more, visit [adelaide.edu.au/study/undergraduate/admissions-information](http://adelaide.edu.au/study/undergraduate/admissions-information)
